

## ***Transparent Pricing, Exceptional Service*** 🌟

Our pricing is designed to be straightforward while allowing flexibility based on your guest count, bar style, and venue requirements. Most couples invest around \$1,000 for our professional bartending services, which includes licensed and insured staff, mixers, garnishes, bar supplies, and up to five hours of service.

Alcohol is always provided by the client, and when following our customized purchasing recommendations, couples typically spend between \$800–\$1,200 on alcohol for their event.

Because every event is unique, final pricing may vary depending on total guest count, number of bars, venue staffing requirements, travel, and any upgrades such as extended, luxury, or craft cocktail packages. Our goal is to provide a seamless, fully compliant bar experience that keeps lines moving, guests happy, and your celebration running smoothly.

If you're ready to get a personalized quote, we'd love to learn more about your event and help you build the bar experience that fits your vision.
